Groom's clip shots are chosen carefully to create a great looking video segment. The Groom's Clip is divided into two sections. Firstly we either get candid casual shots of whatever is happening, maybe even just lounging around having drinks or we can do a 'fun scene' with the guys. Second section is the formal shots of the boys getting ready (putting on ties, cuffs, vests, shoes etc. We shoot with aesthetics in mind. May get shots through doorways, hallways, some funky angles. We aim for interesting shots.

Bride's clip Shots carefully chosen to make the girls look their very best. Our approach is a relaxed shooting style and as with the groom's clip, we take aesthetics into consideration.

Shots of bride doing up back of dress, possibly putting on earrings and other final preparations, shots of Bridesmaids getting ready as well. We also get lots of important detail shots in an interesting way.

Again we get some footage through doorways, hallways etc. Always looking for features that compliment the shot. We want to make it all look beautiful for you.

Ceremony Including the arrival of the bride, highlights of the ceremony, live vows, signing paperwork. Background music track, we are very discreet during the ceremony and capture the emotion of the moment. It's edited to be sentimental and beautiful to watch

Photo shoot Candid shoots of the bridal party and bride/groom at the photo shoot having fun and enjoying the day. We're with you the whole time and get lots of great footage to use for our edit.

Reception Intro Includes detail shots of your reception venue, shots of cake, bonbonniere, table layout etc finishing off with a few wide shots and shots of guests arriving and being seated. Shots of bridal party entering reception and being seated, mingling with guests.

Cake-Bridal Waltz using the original song you danced to, we start this section with the end of the groom's speech then cross into the cutting of the cake and bridal waltz. Finishing up with highlights from the following slow dances.

Dance Section Edited to its own music track the dance section is highly edited music video style comprising of the night's dancing and everyone having fun. Shots of guests mingling but we're not 'in your face!' We always keep an open eye to see who is on the dance floor and who's at the bar!

Farewells This section includes highlights of the throwing of the flowers, garter and saying goodbye to family and guests, car leaving at the end of the night.

Recap-ending Scrolling credits of the bridal party's names and as a backdrop, a recap of the whole day's events. We try to include shots you haven't yet seen and also like to include bloopers for a fun ending

[Also included in this package is a Full Length Version DVD which runs for 2-3 hours](#)

[Approximately 2-3 hours in length and is a combination of the shot version and full length ceremony-reception sections](#)

Full length version is edited in its entirety and we make sure you'll love it with subtle transitions, mix of live audio and music. We include sections of the main feature in this as well
